November 2005

To All WorkWORLD™ Users:

The Employment Support Institute is pleased to announce a change in our policy for purchasers of WorkWORLD software.

People who purchase WorkWORLD software (either the Complete Program or the stand-alone Help/Information System) will receive free software updates as they are released for one year after the date of their initial purchase.

This policy is effective for all purchases of WorkWORLD beginning with Version 6.

This is an automatic subscription program. You do not need to do anything in order to receive the updates. We will ship them to you as they become available. Please notify us should your address change.

We are making this change so that WorkWORLD users can have the most current information available. Many benefits and employment policies, rates, and program changes occur at various times throughout the year, and it is important to utilize the most recent release of the programs. If you have an earlier version of WorkWORLD, your software is NOT up-to-date with current policies, rates, and programs.

As always, when you install this new version, all of your saved cases and stored preferences will remain available.

Thank you for your continued interest and support of WorkWORLD.
